

CHASE AFRICA COMMITMENT SELF-REPORTING QUESTIONNAIRE 2019

EWEC Secretariat, PMNCH, FP2020 self-reporting questionnaire to assess progress on implementation of commitments to the Global Strategy on Women's, Children's and Adolescents' Health.

COMMITMENT SUMMARY NARRATIVE

CHASE Africa will provide access to voluntary free family planning services to marginalized poor communities in Kenya and Uganda and as a result 25,000 additional women will start using contraception each year. This will total over 100,000 additional women between January 2017 and December 2020.

COMMITMENT PROGRESS SUMMARY NARRATIVE

In 2017 and 2018 CHASE Africa provided a total of 92,700 family planning services to women in marginalised communities in Kenya and Uganda. against a target to Dec 2018 of 50,000 services. This has empowered women to be able to decide the timing, spacing and number of children that they want to have. We have supported our implementing partner organisations to provide these services to high standards in conjunction with their local MoH offices.. One of the important challenges has been sourcing free family planning supplies through local MoH partnerships and costs have consequently risen as supplies have not all been provided for free.

Original Estimated Non-Financial Commitment Value?

25,000 per year X US\$9.45 = US\$236,250 X 4 years = US\$945,000 + 5,000 adolescents X US\$9.45 = US\$47,250 Total = US \$992,250 US \$992,250 excludes the cost of the family planning commodities which are provided free by Government or other donors.

EVERY WOMAN EVERY CHILD FOCUS AREAS

Describe the factors that contributed to commitment-related activities being delayed or to an unsuccessful implementation. If delayed, what was needed or is needed, if the problem is current, to restart the activities impacted?

Our implementing partners in Kenya have not accessed sufficient free supplies of family planning commodities.
