

# Family Welfare, Primary Health and Preventive Services Organization (FWPPS) Commitment

## **Narrative:**

Our commitment is focusing on prevention of unwanted pregnancies and their consequences among adolescent and youth in Morogoro DC. -to prevent involuntary pregnancies and its consequences through friendly and quality sexual and reproductive health and family planning education in Morogoro DC among young girls and boys (aged 10-24) with some key schools and community's stakeholders' involvement. This project aims to strengthen services on the ground to ensure that adolescents and youth have the right to and the ability to access voluntary family planning by offering them a bucket of healthy choices. By the end of the project 2000 direct beneficiaries will be positively impacted. The project will be implemented in Morogoro DC. The project will cover two (2) public secondary schools and communities of this rural town. This area is chosen because adolescents and youth have a series of serious sexual and reproductive health issues. The project duration is 2 months (From December 2021 to January 2022).

## **Outcomes:**

Generally, around 2000 students will be positively benefited and impacted at the end of this project. To achieve this the following will be done effectively.

1. 12 family planning service providers recruited and trained to provide education on sexual and reproductive health of adolescents and youth rights so that they acquire appropriate skills and knowledge to assist better beneficiaries.
2. Adolescents and youth have the right to and ability to access friendly voluntary family planning services.
3. 30 parents, school stakeholders, religious and community leaders are strengthened and play better roles and responsibilities in terms of adolescents and youth sexual and reproductive health (AYSRH).
4. 2000 adolescents and youth are empowered on quality adolescents and youth sexual and reproductive health (AYSRH) education through proper information and communication for behavioral change.
5. Local authorities of Morogoro DC commit to budget and prioritize the AYSRH in local policy
6. 30 peer educators among teachers, students, religious and communities' leaders are trained to ensure the sustainability of awareness raising, counseling, and referrals to health centers during and after the project.
