

LES AILES DU COEUR SELF REPORTING QUESTIONNAIRE 2020

EWEC Secretariat, PMNCH, FP2020 self-reporting questionnaire to assess progress on implementation of commitments to the Global Strategy on Women's, Children's and Adolescents' Health.

COMMITMENT PROGRESS SUMMARY NARRATIVE

We've trained 165/260 young leaders (18-30 years old) across DRC
Then, the 165 trained young leaders have conducted 29 advocacy activities
So, globally, 81.000 adolescents/young people have been so far impacted or sensitized by the 165 leaders' advocacy activities and 440 leaders with high influence touched by the advocacy of 165 young leaders
Outcome: 2 Youth-friendly Reproductive Health centers are opened in 2 provinces of DRC (Central Kasai, and Haut- Katanga);
68575 adolescents and youth have benefited from youth- friendly Reproductive health/Family planning services.
Our commitment has contributed to improving women's, children's and adolescents' health across service delivery related to Counselling, psychological support, provision of modern contraceptive methods, Safe abortion, STI and HIV screening and cares and cares to Sexual violence's victims.

THEMATIC COMMITMENT PROGRESS

Reduce global maternal mortality to less than 70 deaths per 100,00 live births

Maternal mortality ratio.

Ensure universal access to Sexual and Reproductive Health and Rights (SRHR)

Percentage of women of reproductive age (15-49) who have their need for family planning satisfied with modern methods, Proportion of women aged 15-49 who make their own informed decisions regarding sexual relations, contraceptive use and reproductive health care, Number of countries with laws and regulations that guarantee women aged 15-49 access to sexual and reproductive health care, information and education, Proportion of men and women aged 15-24 with basic knowledge about sexual and reproductive health services and rights

Eliminate harmful practices, discrimination, and violence against women and girls

Percentage of women aged 20-24 who were married or in a union before age 15 and before age 18, Proportion of ever-partnered women and girls aged 15 and older subjected to physical, sexual or psychological violence by a current or former intimate partner in the previous 12 months, Proportion of women and girls aged 15-49 who have undergone female genital mutilation/cutting

(FGM/C), Proportion of young women and men aged 18-29 who experienced sexual violence by age 18

Geographic Coverage. Check all the geographical levels that you implement your commitment-related activities in?

Country, Sub-country

Linkage to National Health Strategies. Are commitment-related objectives and/or targets aligned with the national health strategy of the country or countries in which activities take place in?

Yes

EVERY WOMAN EVERY CHILD FOCUS AREAS

Adolescent and Young Adult Health and Wellbeing

Applicable

Ongoing

Activities Implemented:

Adolescents and young women receiving assistance related to emergency contraception and hygiene

Community Engagement: Yes
Individual Potential: Yes
Service Delivery Included: Yes
Early adolescent girls (aged 10-14)
Adolescent girls and young women (aged 15-24)

Please indicate your projected or anticipated change (if any) in financial commitments from 2019 to 2020.

Don't know

Please explain the reasons for your answer and if and how COVID-19 influenced the projected change (or no change) in financial commitments. If possible, describe the estimated impact the projected change (or no change) might have on women, children and adolescents (maximum 200 words)

It's hard for us to project because the Covid-19 has deeply affected our capacity to mobilize and secure funds locally.

Please indicate your projected or anticipated changes (if any) in non-financial (in-kind) commitments from 2019 to 2020.

Decrease in non-financial commitments.

Please explain the reasons for your answer and if and how COVID-19 influenced the projected change (or no change) in non-financial commitments. If possible, describe the estimated impact the projected change (or no change) might have on women, children and adolescents (maximum 200 words)

It's hard for us to project because the Covid-19 has deeply affected our capacity to mobilize and secure funds locally. We rather may decrease as we planned for 2020 to open two new youth-friendly clinics. This may not happen because of lack of resources related to the covid-19 issue.

Success Factors. What factors contributed most to the successful completion of your commitment? In your response, describe successful factors as it relates to completing your commitment's original or updated objectives/targets.

The collaboration with other CSO

The community engagement

The domestic fund mobilization

The support of partners
