

# MYLAN LABORATORIES COMMITMENT SELF-REPORTING QUESTIONNAIRE 2019

*EWEC Secretariat, PMNCH, FP2020 self-reporting questionnaire to assess progress on implementation of commitments to the Global Strategy on Women's, Children's and Adolescents' Health.*

---

## COMMITMENT PROGRESS SUMMARY NARRATIVE

Mylan's first objective was to provide contraceptives to 25 million women and girls across the globe by 2020. Mylan's efforts towards portfolio expansion, achieving scale and operational efficiencies, lowering costs, establishing a robust distribution and supply network and collaborating with international funders and ministries of health in various countries has led to Mylan touching the lives of more than 14 million women across the globe in the year 2018. Mylan is on track to meet the objective of reaching out to 25 million women and girls by 2020 as Mylan will be seeing a substantial rise in the number of women and girls it is reaching out to in 2020 owing to the recent receipt of WHO PQ for Mylan's Depo-medroxyprogesterone Acetate Injection.

Mylan's second objective was to have its products registered in 80% of the 69 FP2020 countries by 2020. As of Q1 2019, Mylan is already registered in 64 of the 69 FP2020 countries which is equivalent to 93% of the 69 countries.

Some of the other initiatives taken up by Mylan to enhance access to contraceptives to women and girls around the globe include a) Collaborating with UNFPA for constantly increasing the number of countries with access to Mylan's contraceptive products every year b) Streamlining our supply chain and building buffer stocks to reduce instances of stock outs in smaller countries c) Serviced a sizeable quantity of low volume orders from UNFPA in 2018 to meet the contraceptive requirements in access countries.

---

## THEMATIC COMMITMENT PROGRESS

### *Ensure universal access to Sexual and Reproductive Health and Rights (SRHR)*

Percentage of women of reproductive age (15-49) who have their need for family planning satisfied with modern methods

Proportion of women aged 15-49 who make their own informed decisions regarding sexual relations, contraceptive use and reproductive health care
