

# Visible Impact Commitment

## **Narrative:**

In Nepal, by 2030, we will reach 50,000 adolescents and young people in their diversities directly to ensure their access to information regarding family planning services, and more than 100,000 young people indirectly through different social media campaigns.

In Nepal, by 2030, we will work with provincial and national government to ensure youth access to family planning and youth participation in decision making are ensured in policy documents.

In Nepal, as a FP2030 youth focal point for Nepal, we will work with stakeholders on accountability for FP2030 commitments made by the Government of Nepal.

## **Outcomes & Value:**

1. By the end of 2030, 35000 young people of Nepal have increased their knowledge on family planning and have access to desired information and services they seek.
2. By the end of 2030, youth issues are included in the provincial policy of at least 50% provinces of Nepal.
